Frozen Dinners Make a Comeback

Sales of microwavable meals rise at fastest pace in a decade as companies shake up ingredients and packaging

By Annie Gasparro and Saabira Chaudhuri
Sept. 8, 2018 11:00 a.m. ET

Frozen dinners are on a hot streak.

Sales of microwavable meals are rising at the fastest pace in a decade, drawing attention from food-company executives otherwise struggling with falling sales for well known but outdated brands.
