

NEW STUDENT'S CHECKLIST

This list helps you to check you haven't missed the most important from the website www.xamk.fi/new-student! See detailed instructions on the website.

- Confirm the study place and enrol as student by 8 Jul 2019**

The link for enrolment appears on the screen after you have accepted the study place bindingly. Postponing the beginning of your studies: deliver documents proving the legal grounds for your non-attendance [through Xamk's electronic service](#) by the same deadline.
- Make sure you have uploaded the qualification certificates used for applying to your application form on Studyinfo by 8 July 2019. In addition, bring the original certificates and translations with you in the beginning of studies.**

Students who have completed the matriculation examination (ylioppilastutkinto) in Finland after 1990 are exempted from this requirement, their information is checked on the national database. If you applied with an unfinished qualification, upload a copy of the **final certificate and its' official translation** to Studyinfo. The student selection is conditional until the person admitted has presented the original certificates and these have been verified by checking the copies against the original certificates.
- Arrange your student accommodation**

You are advised to submit the application to the student housing agency as soon as you have received the admission letter. There are also options for short-term accommodation.
- Have your own laptop ready for the studies**

Check the university requirements for the device. In addition, familiarise yourself with the instructions for obtaining the student user name. Only students in Game Design do not need their own laptop in studies.
- Check the time and place for beginning the studies and other programme-specific instructions**

In addition, students from outside Finland need to do the following:

- Pay the tuition fee by the given deadline, if required**

You can enrol for attendance only after having paid the tuition fee.
- Apply for a residence permit, if needed**

Start the application process as soon as you have received the admission letter, submit your online application and book the appointment for Finnish embassy. Also, check the requirements for the obligatory health insurance policy and proof of sufficient funds carefully. Use the electronic services for applying! Request a Finnish personal ID code to be issued with your residence permit.
- Have the health examination done by a medical professional (doctor) in your home country and bring the health certificate with you in the beginning of studies.**
