INTERNATIONAL MOBILITY PROGRAMMES

All for the future.

Finland is the land of thousands of lakes.

Helsinki, the capital of Finland.

Finland

Finland is a Northern European country bordering Sweden, Norway and Russia. Finland's key features are high standard of education, social security and healthcare, all financed by the state. Forests cover three quarters of the country's surface area. Other outstanding features of Finland's scenery are some 190,000 lakes and approximately as many islands.

Xamk

South-Eastern Finland University of Applied Sciences – Xamk – is an institute of higher education which focuses on

- wellbeing,
- technology and
- creative industries.

Xamk is the 5th largest university of applied sciences in Finland. We provide education in eight fields of study, participate in research and development and provide services to the businesses and residents of the area. There are campuses in four towns: Kotka, Kouvola, Mikkelä and Savonlinna.

International cooperation is an important

part of our profile, with more than 350 partner educational institutions around the globe.

- 9 300 students
- 750 employees
- 1 700 graduates per year
- 62 Bachelor's programmes
- 27 Master's programmes
- Double degree programmes
- Open UAS courses
- 19 degree titles
- 4 campuses
- 200 RDI-projects annually
- 350 partner institutions around the world

Xamk is
training experts
for the future.

Finland is known for its high standard of life and quality of education.

Exchange

Study in Finland! Apply for an exchange to South-Eastern Finland University of Applied Sciences. We offer studies in English in many different study fields. International study PISA is a proof of education being at high level in Finland.

This has aroused interest among foreigners in the Finnish education system. In our

university we pay a lot of attention to quality issues by continuous development of the quality system.

Unique nature and four seasons is another good reason to come for an exchange to Finland. You can experience snow and coldness as well as the midnight sun and warm summer days.

Double degree studies

Double degree programmes are based on agreements between South-Eastern Finland UAS, (Xamk) and its international partner institutions. The programmes are intend-

ed for students in our partner institutions who wish to obtain a double degree. Many of the programmes are part of the full-time degree programmes at Xamk.
